Senior CMMC Expertise

CMMC Level 2 SSP Authoring for DIB
Contractors
A Product of Consultant Works, LLC

The CMMC Challenge

Navigating Compliance Requirements

Assessment Objectives

There are **320 NIST 800-171A assessment objectives** that contractors must document and defend to achieve compliance, creating complexity and confusion for organizations striving for certification.

Consulting Costs

Typical CMMC consulting engagements range from **\$25K to \$75K**, making the process financially challenging for many small and mid-size DIB contractors seeking to fulfill compliance requirements.

What Concura Is

Your Alternative Solution

CMMC Expertise

Our platform packages **senior CMMC assessor expertise** across all 320 assessment objectives, ensuring compliance is managed effectively, with guidance tailored to each contractor's unique needs and challenges.

Concura Interview

With our **AI-led SSP authoring interview**, your team can create an authentic personalized SSP, enhanced by AI cleanup, moving beyond templates to produce a document that truly reflects your organization.

Human Interaction

Concura offers **direct booked time** with a senior assessor, providing the necessary human touch when required, ensuring complex questions are answered, and compliance processes are navigated smoothly.

Your Data Is Stored in GCC High

Concura stores your authored SSP content in Microsoft Azure Government — GCC High — the cloud environment certified for handling Controlled Unclassified Information and DoD Impact Level 5 data. Built around the same compliance posture our customers are being assessed against.

Subscription Options

Flexible Plans for Your Needs

Concura Reference

For \$3,000/year, access all 320 assessment objectives, a comprehensive Knowledge Base, a sample SSP package, a completion tracker, and continuous updates to stay current.

Concura Interview

For an additional \$5,000/year (\$8,000 total), Concura Interview presents assessor-style questions for each control. Your answers become the base for your SSP narrative — you refine from there. 14-day trial, AI cleanup, personalized .docx generation, and GCC High storage.

Concura Consult

At \$300/hour for paid customers, experience a 60-minute Zoom session with a senior CMMC assessor, covering SSP reviews, scoping questions, and pre-assessment Q&A sessions.

The Math

Cost-Effective CMMC Documentation

Traditional Consulting

Traditional consulting engagements can cost **\$25K–\$75K** and typically take **6–12 months*** to complete an SSP, making it a significant investment for most contractors.

Concure Reference

With Concure Reference alone, you pay only **\$3K** for self-paced authoring that typically takes **8–12 weeks***, allowing you to save both time and money on compliance efforts.

Concure Interview

Combining Concure Reference with Interview brings the total to **\$8K**, reducing the in-platform authoring period to just **4–8 weeks***, streamlining the SSP authoring process significantly.

* SSP authoring time only. Environment setup and evidence collection are separate work.

Built by Expertise

Our CMMC assessors, with Lead CCA, CCA and Instructor credentials, bring years of Defense Industrial Base contracting experience. Concura is built with the knowledge and guidance of our assessors who have conducted dozens of assessments.

Common Questions

Data Storage

Your authored SSP content is stored in Microsoft Azure Government — GCC High — the cloud environment used for DoD Controlled Unclassified Information.

Cancellation Policy

Although annual subscriptions are non-refundable, auto-renewal can be canceled anytime without penalties.

Content Access

Reference content is view-only, while Interview subscribers can download their personalized SSP documents as needed.
